

## State and Local Cybersecurity Grant Program (SLCGP)

### Program Overview:

#### What is it?

- 4-year, \$1 billion grant program in a whole-of-nation effort to combat cyber threats.
- Enables DHS to make targeted cybersecurity investments in **State, Local, Tribal and Territorial (SLTT)** government agencies.
- Goal is to improve security of critical infrastructure and resilience of services provided to communities.
- The designated State Administrative Agency (SAA) can apply as a single entity or as part of a multi-entity group project.

#### Funding Details:

- FY 2022, \$185 million is available with allocations set for each state and territory.
- \$200M FY2022, \$400M FY2023, \$300M FY2024, and \$100M FY2025.
- The SAA must meet a 10% non-federal cost-share requirement; cost share or cost match is NOT required for multi-entity group projects.
- The SAA must pass through at least 80% of the funds awarded to local units of government.
- 25% of the total state allocations must support rural entities.

#### Key Dates:

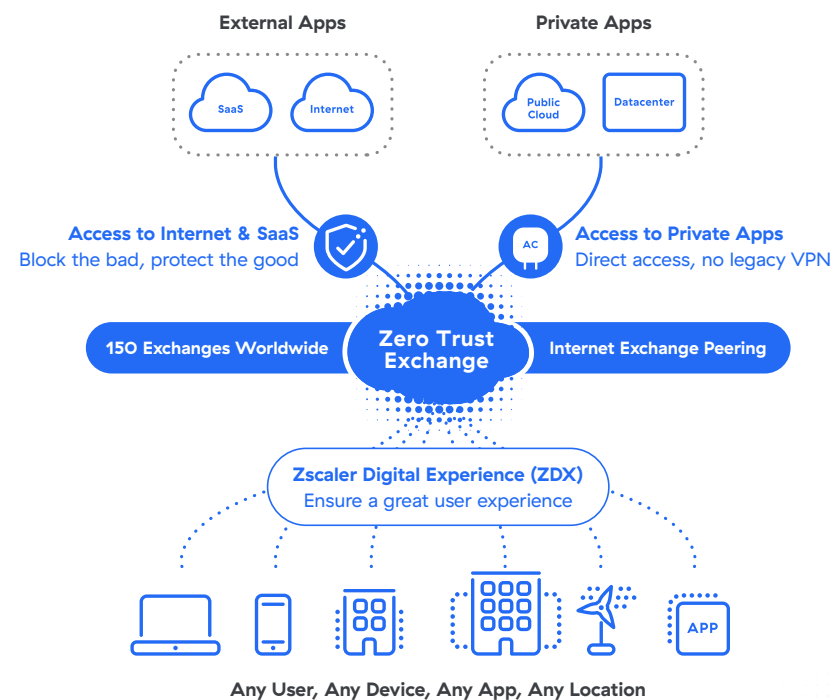

- September 16, 2022 – Grant Opportunity Posted
- Registration is required to apply and can take four weeks or more to complete.
- Cybersecurity Plan prepared for application including vulnerability management, prioritization and critical infrastructure protection.
- November 15, 2022 – Application Due.
- Two or more SAAs may apply for joint projects, but they still must submit separate applications.

### How Zscaler can help

- Consult on your Cybersecurity Plan, mapping zero trust solutions to the requirements of funding.
- Enable Zero Trust security for the Whole of State in a shared services model through a multi-tenant cloud security platform.
- Provide zero trust architecture solution language for the application process.
- Education of stakeholders on zero trust architecture.
- Solution architects to map out a multi-year transition to zero trust architecture.
- Business value team to construct cost/benefit analysis.
- Risk assessment to identify high priority cyber risk vulnerabilities.
- Provide StateRAMP authorized zero trust solutions.

### Securely transform your organization

Public sector agencies are under pressure to quickly move to secure the nations' critical infrastructure while also improving citizen services. Zscaler provides the tools needed to shift to a modern, direct-to-cloud, zero trust architecture that provides secure, always-on access regardless of location. StateRAMP authorized and trusted by more than 300 public sector organizations, Zscaler protects government agencies from cyberattacks and data loss with the Zscaler Zero Trust Exchange.

Zscaler is the only StateRAMP, end-to-end Zero Trust Platform for Government. Learn more at [zscaler.com/state-and-local](https://zscaler.com/state-and-local).
